## Daily Nevada State Journal.

C. C. POWNING, Editor and Proprietor.

## THE COMING YEAR.

Next year, it is expected, will be one of the most important in the history of Nevada, for the reason that the State, Government and private individuals will make a beginning towards the reclaiming of our arid wastes. The coming session of Congress will have as its chief issue the question of water storage in the west. The fact has been established that the apparently sterile tracts of the western highlands are in reality, when subjected to water, as productive as any other sections of the earth, and their soil less liable to run out by continual use.

There are two propositions which have been put forward that effect Nevada. The first is that the Government take a hand in the work of reclaiming the arid regions. The second is that the nation donate to Nevada all the lands within her borders, and that she appropriate the moneys that accrue from their sale to their reclamation. The latter proposition is the one received with the most favor by our representatives in Congress and by our people themselves. The wheels of government move slowly, and where such vast undertakings are attempted, are likely to get often clogged. The report of Major Powell certifies that ten years will be required to make the necessary surveys alone. By the time then that the Government may be expected to have made Nevada's deserts blossom as the rose, the hairs of her sons will have become whitened as the snows of her mountains. With the lands relegated to Nevada, under suitable provisions, the State will be in a condition to forward, under personal supervision, her own internal improvement. The State is the true instrumentality for the reclamation of her waterless areas. The ponderous machinery of government, with fountain head three thousand miles away, is the more liable, of the two, to fail in its mission.

What Nevada wants is immediate action, not procrastinated hopes. Work, accomplishment, must be the key notes to her future development.

## The Purging of St. Paul's Cathedral.

The Bishop of London Monday performed special consecration services in St. Paul's Cathedral to purge the edifice from the defilement caused by a suicide, which occurred in the historic building on September 28th. According to old traditions, the shedding of human blood in a place dedicated to God deprives the building of its sacred character, which can only be restored by a new consecration.

Shortly after midnight Monday a good deal of excitement was caused along the water front of San Francisco by the appearance of a ship on fire coming through the Golden Gate. Her tall spars were seen to be wrapped in flames. She was in tow of a tug which was sounding its whistle as a warning to other vessels on the bay. The vessel was the Maid of Orleans. Two fire was eventually extinguished before the vessel was destroyed.

The condition of Portugal is becoming daily more critical. Added to revolution at home are difficulties with England, growing out of the recent trouble on the Zambezi river. It is said that the liberals, who are in favor of a Republic since the overthrow of the Brazilian Empire, have spared no efforts to introduce revolutionary sentiments among the people.

Another British regiment has become mutinous. In view of the many like cases lately occurring, it might be worth while for the English Government to inquire somewhat closely into army affairs. The men are treated much better than they were a generation or two ago, but within that time the idea of what is due to the individual has grown much faster.

A party of Armenians and Druses have stormed a Turkish barracks and Government building in Syria, killing the Governor and a number of soldiers, and rifled the Treasury. This will probably occasion some characteristically Turkish methods of repression and punishment which will startle Europe and give Russia another excuse for interference.

Victor Emanuel, the heir-apparent to the Crown of Italy, assumed a fictitious title while traveling in Russia and Germany not long ago. The title happened to belong by hereditary to an impecunious Italian, who has now sent the Prince for compensation for its use.

The little daughter of Mr. Bull, whose family were going across the mountains from Baker City to Coos Bay, was dragged a quarter of a mile over a rough road by a horse, her foot having caught in the stirrup, and was killed.

Congressman John L. Wilson, who returned to Seattle from Washington City a few days ago, reports the loss of his pocket-book containing \$10,000 in securities, \$350 in greenbacks, gold and other valuable papers.

An Indiana Court yesterday gave two prize-fighters and their referee six months in jail and a fine of \$500 each. A little more of that kind of law would break up the brutal business here and elsewhere.

A Commission appointed by the Cortes to consider Spain's commercial relations, advises that the Government, at the expiration of the treaties in 1892, to restore the old protective tariff of 1877.

## AN EXTRA SESSION.

Congress Will be Called Together Early in November.

It is now believed that Congress will be convened in extra session about the last of this month. Several days ago correspondents of the New York papers telegraphed that the matter had already been settled, but before the printer's ink on the papers had dried Secretary Halford dissipated this belief by a dispatch from Ottawa. President Harrison will issue his proclamation in advance of the elections. It will not be policy to withhold it until after they have occurred.

As nearly as can be estimated from the existing probabilities, the extra session will be convened on November 11th or 12th being a week following the Congressional elections. This will enable any member of Congress, no matter how remote his district may be, to reach Washington in time by leaving after the polls close on November 4th.

After the adjournment of Congress a number of Senators, including Messrs. Hiscock, Sherman and Hawley, discussed the subject of an extra session with the President. They have found that he favored the idea, and more than one-half of the Republican Senators who were consulted were found to be anxious to have Congress reconvened before the regular time in December.

Subsequently the matter was discussed at Cabinet meetings, and a majority of the President's official advisers concurred in the advisability of an extra session in November. It was in anticipation of this that the Senate continued its session clerks through the recess, though the fact was not hinted at when the resolution was put through.

When the President left for the West his intentions were to call an extra session the proposition having the endorsement of the party managers in Congress, as well as a majority of his Cabinet. Since his departure there has been such a general acceptance of the proposition that he will have no reason to hesitate on his return.

The main purpose of the extra session, of course, is the passage of the elections bill, but there is another matter of equal importance, namely, the Congressional apportionment. This cannot be railroaded through, because it effects personally every member in it, and a special order of business, with a previous question attachment could not be operated with any question of success; consequently the reapportionment will occupy a large portion of the time after Congress reassembles. Not one feature of the proposed bill has yet been decided upon.

Representative Dannel introduced a bill which was supposed to copies the views of the Republican managers as to the relative representation to be given each State, but that bill was based upon estimates now considered to be incorrect. The Dannel bill was constructed upon the basis of a population of nearly 65,000,000. More recent and accurate estimates indicate that the official count of the Census Office will not reach 64,000,000. This difference will compel a complete revision of the Dannel bill. The necessity for an early start on the apportionment bill is apparent, and this is the most practical argument advanced by those who favor an extra session.

## ANOTHER MUTINOUS OUTBREAK.

English Soldiers Protest Against Being Sent to India.

There has been another mutinous outbreak among the English troops, this time in the ranks of the East Surrey regiment, stationed on the island of Guernsey. The trouble arose from a detachment of the regiment being ordered to India.

The men refused to prepare for their departure, totally disregarding the commands of their officers. As things were assuming a threatening aspect, the recalcitrants were disarmed. Finally, however, all embarked, but in a very sulky and menacing mood.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle. feb. 21-aw-ly

## Scottish Home Rule.

Gladstone has declined to receive a deputation which waited on him from the Scottish Home Rule Association of Edinburgh. This association recently sent a circular to the various Scottish Liberal associations protesting against the policy of the Liberal officials towards the Scottish home rule movement, and explaining the reasons for their protest. This argument was submitted to Gladstone.

## Warlike Armenians.

A party of Armenians and Druses attacked the barracks at Silensis, Syria, and blew up a portion of the buildings. Forty Turkish soldiers were killed. The Armenians then invaded the Government building, killed the Governor and looted the treasury. They carried the prison by storm, liberating all the prisoners.

## India's Railway Tunnel.

An article in The Allahabad Pioneer gives some interesting particulars concerning the tunnel that has just been completed through the Khojak, on the railroad from Quetta to Candahar. The Khojak pass is 7,500 feet above the sea and about 2,000 feet above the level of the surrounding country. The tunnel pierces the range at right angles, and its course is therefore due east and west, and it enters the hill about 1,000 feet below the crest of the pass. The length of the tunnel is 12,000 feet, or two and a half miles approximately, and it will carry a double line of rails. For the first half the floor ascends about 1 in 1,000, and for the second half of the journey it descends at an incline of 1 in 40. There are two main shafts, one 318 feet and the other 290 feet deep, which were sunk in order to facilitate the construction of the tunnel.

The chief obstacle to progress arose from the flooding of the tunnel at more than one point. A large spring was cut, and the water flooded the shaft on the Candahar side to the depth of 180 feet. It took ten weeks to pump out the water, and in the western heading as much as 500 gallons a minute were constantly rushing out of the west mouth. In order to overcome this difficulty a side cutting had to be made. The magnitude of the work is testified to by the banks of shale and rock at the mouths of the tunnel and at the pitheads, which are said to be quite altering the landscape in places. One curious discovery made during the progress of the work, as the result of an investigation into the cause of certain mysterious explosions, was that it was proved that "combustion had arisen inside a case of blasting gelatine."

## Another Drug Abomination to Be Avoided.

Exalgine is the name of a new drug similar in composition to antipyrin and antifebrin, which has lately been the object of much laudation for its energy as a pain killer. Neuralgias of all kinds, wherever located, are generally dispelled by its use in about half an hour at the outside. Frequently the pain does not return, and the cure is permanent, but sometimes there may be a relapse and further doses are necessary. Exalgine, however, has been engaging the attention of Dr. Bardet and Dr. Dujardin-Beatmetz, two French physicians who have been making an investigation into the therapeutic qualities of this substance. While they agree as to the activity of the drug in destroying pain, the doctors are equally unanimous in their opinion as to the danger of its use. The new pain killer is a powerful poison as well as a sedative, and its action affects the brain, giving rise to violent convulsions like those of epilepsy. The moral of the findings of MM. Bardet and Dujardin-Beatmetz is that it is better to endure pain than to resort to the use of so dangerous a drug to assuage it.—Journal of Health.

## A New Clock for Race Courses.

R. M. Johnson, Sheriff of Keokuk county, Ia., has invented and patented a horse timer which he believes will become very popular on race courses. The dial is about three feet in diameter, and its divisions and subdivisions are marked with sufficient distinctness to be seen from any part of the ordinary grand stands.

The markings divide the circumference of the dial into minutes, seconds, half seconds, quarter seconds, eighth seconds and sixteenth seconds. The hands may be stopped or started instantaneously by touching a button at the back of the case. The minute hand makes one revolution in twelve minutes, and the second hand makes a revolution in one minute. Both may be turned to the starting point instantly and easily. The escapement is a half second beat.—Jewellers' Weekly.

## An Electric Storm.

Dubuque, Ia., has been treated to a great electrical storm, which was not attended by loss of life, though telegraph and telephone instruments were burned out and some damage was done to property. It is quite probable that the electric wires helped to protect the people from a storm of unusual violence. The great balls of fire that are reported to have exploded, doing no damage, have been observed before. Sometimes they are harmless, but more frequently they kill. As many as eight men have been killed at one stroke, and so instantaneously that their dead bodies have remained in the attitude of life.—New Orleans Picayune.

## A Needle in the Bone.

A dispatch from British Columbia says that Miss Kelly, of New Westminster, imagined she broke her leg by a sudden movement of the limb. Doctors were called in and could discover no break, but decided to open an abscess which had developed near the supposed break. On an incision being made a large sized darning needle was found, the point of which penetrated the bone. The needle was removed and the young lady is rapidly recovering. She has been lame since childhood, and it is supposed the needle entered her foot then and gradually worked up to where it was found.

While drawing water from a well a Perry (Ga.) boy pulled out a monster that resembled an alligator very much. It had every resemblance of a young gator, except it had a smooth skin and is spotted like a rattlesnake and measures seven inches in length. He now has this wonderful monster in a large tin vessel, which he keeps supplied with fresh water, and says the monster will eat bread or anything that he may put in there for it to eat.

The sun's rays reflected from some bright tin pans put out to dry set fire to a house in South Fairfield, Mich. It happened that they were so placed that the reflection from each pan focused on the same spot.

The centenary of a flower has just been celebrated by a banquet in Paris. The dahlia is just 100 years old in France. It first flourished in that country in 1790.

Rah for the Prohibition ticket.  
The trains still continue irregular.  
Congressman Ward, how do you do?  
Vote for a Constitutional Convention.  
Salvator has won in three years \$130,000.

H. F. Dauberg, of Carson Valley, was in town yesterday.

J. L. Wines is expected back from San Francisco this morning.

Mrs. J. N. Evans, who has been dangerously ill, is recovering.

Col. Sutherland was a passenger for Candelaria yesterday morning.

Washoe county will poll a larger vote this year than it did two years ago.

The recent census of the City of Mexico shows the population to be over 400,000.

Be sure you are registered. Only six days more. The books close on the 29th.

Supt. A. C. Hamilton, wife and daughter, were passengers for the Comstock yesterday.

W. E. Griffin and wife and Mrs. M. D. Foley returned from the Bay yesterday morning.

Thomas Fitch, lately of Reno, has purchased 80 acres of land near Hooker's Station, Cal.

The Young Men's Republican Club meets this evening at the Justice Court at 7:30 P. M.

Ice was frozen three-quarters of an inch in thickness in many parts of Reno night before last.

The Electric Light Co. has decided to advance the charge on incandescent lamps fifty per cent.

The Journal is only one bit a week, delivered by carrier, and now is a good time to subscribe.

R. F. Brennan, of the Manhattan, will leave this morning for a trip through the northern country.

The Capitol lodging house of Carson was robbed last week of \$150, a gold watch and two revolvers.

It is authoritatively stated that Governor Stevenson's entire estate at death only amounted to \$35,000.

Mrs. J. P. Jones and Miss Alice Jones came up from the Bay yesterday morning, and continued on to Gold Hill.

The steam wagon will not run into Truckee this Fall, but will haul to Verdi and then reship the lumber to Truckee.

Go to Lunge & Schmitt for heating stoves, cook stoves, ranges and house furnishing goods. Large lot variety and best values.

The body of Charley Snow, who died here Tuesday, was taken to Hawthorne yesterday by his mother and sister for interment.

C. C. Warner, of Reno, has been nominated by the President for Indian Agent of Nevada, vice S. S. Sears, the present Agent.

If you want cheap wood, but a car load of knots from the Verdi Mill Co. They cost less than one-half the usual price of regular cord wood.

O. Lonkey's new, large and handsome two story residence at Verdi, is being rapidly constructed, and will be an ornament to that lively little town.

J. H. Kestell, familiarly known as "Old Kit," died in Virginia City Monday night. He was a Pacific Coast Pioneer and came around Cape Horn in 1849.

Read the Palace Dry Goods and Carpet House's new advertisement, and then visit their establishment and look at their stylish cloaks, dry goods, etc.

Miss Bessie Dot-n is teaching temporarily at the public school in the place of Miss Maud Snow, who is accompanying the remains of her brother to Hawthorne.

The control of the Kenutuk mine has passed from the Stevenson estate into the hands of Hon. John P. and S. L. Jones. S. L. Jones is appointed Superintendent.

There is considerable sickness about town and everyone should take extra precautions against contracting colds and subjecting themselves to exposure of any kind.

T. H. Goldman, General Passenger Agent of the Southern Pacific Railroad, passed through yesterday morning for the East. He was accompanied by his wife.

The Essex Ice Co.'s house, at Essex, which was blown down last Winter, is being rapidly rebuilt. The pond is also being enlarged and put in first-class condition.

Both County Conventions having resolved in favor of calling a Constitutional Convention, the vote of Elko will be almost, if not quite unanimous in favor of the proposition.

Geo. W. Bryant, formerly of the Carson Mint, has been nominated by the President as Receiver of Public Moneys at Los Angeles, Cal., to which place Mr. Bryant removed several years ago.

Among the arrivals at Virginia City Tuesday were Vivienne de Richemont and Baron Jean de Ravignan, two distinguished French engineers, who have come to take items on Comstock mining methods.

Some days ago Mamie Barrett was pinched on the wrist while at school by a playmate. A day or two later the arm began to swell and blood poisoning set in. She is now in a very critical condition.

## THE PROHIBITIONISTS.

They Place a Ticket in the Field—Their Platform and Nominees.

The Prohibitionist State and County Convention met yesterday forenoon in the hall of the Young Men's Institute. Rev. T. McGill was elected Chairman, E. W. Taylor, Secretary, and F. M. Peck, Assistant Secretary.

After the usual preliminaries, consisting of the appointment of committees, etc., the following platform, which had been previously prepared was read and adopted:

**PLATFORM.**

The Prohibition party, by its representatives in Convention assembled, recognizing Almighty God as the source and power of human government, declares:

First—That the traffic in intoxicating liquors as a beverage, is the prolific source of poverty and crime; that it fosters idleness, vice and all that is inimical to the happiness of the individual, the purity of the home and the moral and financial welfare of the State.

Second—That we are unalterably opposed to any law, by whatever name it may be called, that legalizes this traffic and maintain that the policy of the Government should be that of its entire prohibition by laws faithfully enforced to which policy the Prohibition party stands uncompromisingly committed.

Third—That we endorse the platform of the National Prohibition party.

Fourth—That retrenchment and a wise economy in the administration of our public affairs are imperatively necessary, and to this end we favor the calling of a Convention at the earliest day to amend our State Constitution.

Fifth—We are unalterably opposed to nono-metalism and favor the free and unlimited coinage of silver.

Sixth—We favor such legislation, State or National, as may be necessary for the storage of our waste waters for the use of the people in the reclamation of our arid lands.

Seventh—We deem a pure ballot and a fair count as necessary to insure the perpetuity of our system of Government, favor the introduction of the Australian ballot system and the disfranchisement for all time of men who, directly or indirectly, buy or sell votes.

Eighth—We favor only the rule of the people, and stand unalterably opposed to rule by corporations.

Ninth—We deem a tariff for revenue, adjusted so far as is possible to enable American industry to compete with that of Europe a necessity, but do not deem it essential to protect the wage earner and toiling masses from the competition of cheap foreign labor.

Tenth—That the School Fund of the State should be held inviolable as a sacred trust to be used only for the furtherance of the cause of education.

Eleventh—That we deprecate and condemn the action of our last Legislature in trying to fasten upon the State an infamous lottery scheme, much to the detriment of its morals and general prosperity, and we pledge ourselves to oppose by every lawful means all that would hinder the moral and general welfare of the people or further tarnish the name of our State.

Twelfth—We favor only the election for public office of men of honesty and moral principle and men whose interests are fully identified with the interests of the State.

After the reading of the platform the Convention adjourned till 1 o'clock, to meet at the Opera House. The following is a list of the nominees made at the afternoon session: M. E. Ward for Member of Congress, and left the rest for a committee to fill up. For State Senator they nominated Frank Cook, and J. O. Hogan, Ruben Hoag and W. H. Haynes for the Assembly. For Sheriff, J. G. Westlake; Treasurer, M. J. Turner; Assessor, Jacob Steiner; Long Term Commissioner, A. B. Banks; Short Term Commissioner, Enoch Morrill; Justice of the Peace, E. W. Taylor; Constable, Alex. Beckus.

**The N. & C. Extending.**

The N. & C. road is building ten miles of new road, extending the line from Ligan to Brubeck's, a point within twenty-one miles of Susanville. So that in thirty days the little narrow gauge will be operating eighty-one miles of road and next Summer will build on to Oregon.

**The Palace Dry Goods House.**

Attention is called to the new ad. of the Palace Dry Goods and Carpet House which appears in this issue. They have received an entirely new stock of Fall and Winter goods which is claimed to be the largest and most complete ever brought to Reno.

**Admitted to the Bar.**

Last Monday week Alex. McGowan and a young man from Nye county named W. L. Gooding passed most creditable examinations before Supreme Court Judges M. A. Murphy and C. H. Beiknap, and were admitted to practice before all the courts in Nevada.

The opening of a unique theater in Paris will take place shortly. Every play in the new house will be exclusively pantomimo and will be patronized, it is expected, only by deaf mutes. On the first evening a drama, written by a deaf mute, and entitled Love and Death will be produced for the first time.

R. E. Queen, at one time a partner of William Funniger in the drug business at this place, and at present President of the Syrup of Fig Company, of San Francisco, was married in Louisville, Kentucky, on the 14th inst., to Miss A. Joe Fairfull-Smith Forwood. The couple went to New York to spend their honeymoon.

## NAPA RACES.

Frank M. Beaten by Homestake—Time 2:15 1-2.

A fast track and weather just wain enough to expand the muscles of the horses were the features of the Napa races Monday. The first event was the final heat in the 2:22 class between Wanda and Frank M. and Homestake which darkness prevented on Saturday. Homestake was in great form, which was demonstrated by McDowell, who drove him the last quarter of a practice mile in the morning in 31 1/2, and the pools were two to one in his favor with very few field men.

At the start Violet scored badly with Wanda and kept the race back for some time, finally getting off nearly a length behind, with Homestake a nose to the good of Frank M. McDowell took Homestake straight along, Keating letting Frank M. go off his feet at the eighth and not being able to pull him down for some time. Wanda took advantage of the break to get into second place, closing in on Homestake who reached the quarter in 33 1/4. Wanda broke on the back stretch and Frank M. forged ahead of her, gaining well on Homestake at the half mile, which was reached in 1:06 1/4. Down the turn Keating made a gallant effort with Frank M. but McDowell was going with grim determination and sent Homestake to the three-quarter post in 1:41 1/4. Up the homestretch came Homestake, well in the lead with Keating forcing Frank M. with both whip and voice and closing in the distance every step, when suddenly, with his prospects brightest, Frank M. struck his heel and went in the air while McDowell, who had not seen the accident, was forcing Homestake home for all he was worth. Salisbury, the owner of the horse, rushed out to stop him, foreseeing that he might outclass himself for future events. McDowell caught the signal, but too late, and while Homestake came in tightly held he had passed into the free-for-all class, having tapped the wire in 2:15 1/2 and in addition scored the fastest heat of the season.

The summary of the race is as follows:  
Homestake.....2 1 1 1  
Frank M.....1 2 2 2  
Wanda.....3 3 3 3  
Time, 2:19 1/4—2:20 1/4—2:19 1/4—2:15 1/2.

## CANADIAN INDIANS.

A Deplorable Condition of the Red Man of British Columbia.

Mrs. Tate, who has just returned from work among the Indians of British Columbia, says among the heathen Indians of the province women are slaves and are always degraded. They have their heathen fasts still. A short time ago she came across a feast, where there were 800 people regaled. A short time before this they were at their Northern station, where a cannibal feast was held, in which the cannibals bite a dead body, and also bite living people. Some of the children who came home had been cruelly bitten in this way. The devil's dance which is prohibited by legislation, goes on about the same. There are four "religious" or degenerate. These men hide in caves, where they fast for days and then come out in a frenzied state. Sometimes they bite raw flesh out of human bodies. When they cannot get human flesh they will seize a living dog, tear it up and devour the flesh. This is to appease the angry devils. Disease and sickness is spread by these cannibals. There is a whisky feast, for the purpose of which the tribes get whisky from Victoria sufficient to fill a canoe, and men, women and children dip into the canoe until they are all mad drunk. Then they fight and stab each other, and the friends of those who have been murdered, when they become sober, slash their own bodies with knives.

Mrs. Tate relates a shocking story of the superstitions of these Indians. When an infant is brought into the world they kill a cow, tear out its heart and put it palpitating on the child to ward off disease. Deformed or puny children are killed or allowed to die. Girls are married at eight and nine years. In one case a girl of thirteen was forcibly taken from home, to be married to a man who already had two wives. They heard the child screaming as she kicked and scratched the man who was carrying her off. If the child is pretty and the other wives good natured, she has not a bad time, but generally she is made to work, and when she becomes useless they take her out on a little islet and leave her to die there.

One of the most horrible stories was about the "Devil's Cane," a poisonous shrub with which old women are beaten. After castigation the body swells up to an immense size, and the women are left to die in awful agony.

## Dining Car Service.

A circular has been issued by the Southern Pacific Company announcing that from November 15th or thereabouts a regular dining car service will be started on the Central Pacific. The Pullman Palace Car Company is finishing three vestibule dining cars to be named respectively "Yosemite," "Pacific" and "Golden Gate." They will be attached to train No. 3 which arrives at Reno every morning at 10:05 o'clock eastbound, and to No. 4 passing Reno every night westbound. The cars will be attached to the overland trains at either Truckee or Wells, so as to provide tourists with breakfast the morning after leaving San Francisco or Ogden. The steep climb of the grade will thus be avoided, and the conveniences will still be fully served, as the trains leave Ogden and San Francisco long after the average traveler has dined.

For window glass, all sizes, go to Lunge & Schmitt.

To the Young Men's Republican Club and to the Young Men of Reno.

No party or movement was ever successfully organized. The more thorough and systematic the organization the greater its success. We should all realize the full import of this proposition and lead all our efforts and our energies to the success of our club, which will be the most thorough, selling and effective political movement ever inaugurated in Washoe county. We should feel the responsibility that rests upon us, and as young men and true citizens, who desire good government, the prosperity and continued development of our State, labor earnestly for the success of the entire ticket. The party to which we have the honor of belonging is one whose history is interwoven with the prosperity of our nation and whose present and future policy means the perpetuation of the Union. We feel reasonably certain of success in November, but in view of the fact that the present administration has given us new life by its favorable legislation on silver, and has accorded us fair consideration in matters of internal improvement, let us pile up a crushing majority for the entire ticket as a mark of esteem and gratitude to the grand old party and demonstrate to them that we have entire confidence in that party which has done so much for us.

The members of the club are requested to assemble in the Justice Court rooms at 7:30 o'clock to-night, as we have matters of importance to consider. Let every member be present. We extend a cordial invitation to all young men in Reno under the age of 35, who desire good government and the upbuilding of Nevada, to sign his name to the roll, and hand in hand with the veterans of the party march to the polls on November 4th, and by an honest vote continue the Republican party in power, and by an honest vote place the stamp of condemnation upon a willful obstructive Democracy, whose very names are synonymous with corruption and retrogression.

C. D. VAN DUZER,  
President Young Men's Republican Club.  
Gazette please copy.
